

SPECIFICATIONS

CONSOLID S

Is a blend of silicates in water solution with low viscosity and therefore high penetration properties. It can penetrate to a depth of several centimetres and when dried, it improves the cohesion of cementitious surfaces. Consolid S is ready-to-use and need not be diluted.

TECHNICAL DATA

Product identity

Consistency: liquid
Color: Transparent
Density (kg/m³): 1200
Viscosity (mPa.s): 35
Dry solids content (%): 30
