DCI 200 FLEX

Is a high performance polymer modified highly deformable, cementitious adhesive with extended open time for ceramic and porcelain slabs tiles. DCI 200 FLEX is a C2ES1 class cementitious (C), improved (2), extended open time (E) deformable (S1) adhesive. DCI 200 FLEX can be used on walls and floors for thin bed and medium bed installations of tiles and stone material.

TECHNICAL DATA

Product identity

Consistency: powder
Color: white or grey
Bulk density (kg/m³): 1250
Dry solids content (%): 100
Maximum grain size: 0.6 mm
Classification: EN 12004 and EN 12002
