

SPECIFICATIONS

DCI LINOLEUM 2K

Is a two component white, fast setting, ready-to-use, solvent free epoxy polyurethane base adhesive used for interior and exterior installations of linoleum floorings. The product is easy applicable and has very good elasticity. Due to content of special additives the product is resistant to bacteria and mold.

TECHNICAL DATA

Product identity

Consistency:

- Component A: pasty
- Component B: liquid

Viscosity:

- Component B: 150,000 (Rpm 5, Spindle 7)
- Component A: 20,000 (Rpm 5, Spindle 7)

Color:

- Component A: White
- Component B: Yellowish transparent

Dry solids content (%):

- Component A: 100
- Component B: 100

Bulk density (kg/m³):

- Component A: 1450
- Component B: 1050
