

SPECIFICATIONS

SEAL MASTER

Is a two-component flexible cementitious waterproof slurry comprising a liquid polymer and cement-based powder. When are mixed and applied after curing, it forms a flexible, continuous waterproofing membrane. The product protects cement-based plasters and concrete, including those on grade. Seal Master meets the requirements defined by EN 1504-2 coating (C) according to the PI, MC, and IR principles ("Protection systems for concrete surfaces").

TECHNICAL DATA

Product identity

	Component A	Component B
Consistency:	Powder	Liquid
Color:	White and grey	White
Bulk density (kg/m ³):	1250	1050
Dry solids content (%):	100	40
Classification Standard:	EN 1504-2 and EN 14891
