BETOCURE PLUS

Is a special, chloride-free liquid admixture to reduce final hygrometric shrinkage of mortar, ordinary and self-compacting concrete, to make them less prone to cracking problems. Betocure Plus works by reducing the surface stresses of the water present in the capillary pores and as a result, the forces which act upon the walls of the pores is greatly reduced.

TECHNICAL DATA

Product identity

Appearance: Liquid

Colour: Transparent

Density: 1.05 kg/Lt at +20°C

Equivalent sodium oxide: $\leq 0.5\%$

Total chloride ion content: $\leq 0.10\%$
