### BIT-SEAL 1K

Is a solvent-free paste consisting of selected water-emulsified bitumen, special fine-graded aggregates and admixtures. Bit-Seal 1K thixotropic consistency makes it easy to use for waterproofing even vertical and sloping surfaces. When completely dry Bit-Seal 1K forms a waterproof plastic coating that is resistant to re-emulsifying after prolonged immersion in water, even when slightly acid or alkaline, and resistant to aggressive agents present in the soil. Bit-Seal 1K meets the requirements for polymer modified bituminous thick coatings, in compliance with EN 15814.

#### TECHNICAL DATA

##### Product identity

Consistency: paste

Colour: black

Density (g/cm<sup>3</sup>): 1.25

pH: 10

Brookfield viscosity (mPa·s): 45,000

Dry solids content (%): approx. 80
