

SPECIFICATIONS

FIBRE TECH

Are synthetic fibers in polypropylene for fiber-reinforced concrete with controlled shrinkage that are fireresistant to reduce the explosion risk of concrete and in case of fire the phenomenon of spalling.

TECHNICAL DATA

Product identity

Color: white

Appearance: fiber with circular cross section

Length (EN 14889-2) (mm): 6 and 12

Specific Density (g/cm³): 0.91

Equivalent diameter (EN 14889-2) (μm): 18
