

HIGH QUALITY PLASTIC LINER WITH PVA EMULSION BASE VEOVA. SUITABLE FOR INTERIOR AND EXTERIOR USE.

DESCRIPTION

- High quality plastic liner with PVA emulsion base
- VEOVA. Suitable for interior and exterior use

PRODUCT PROPERTIES

- Easy application
- Diluted in 1:3 ratio
- Very strong adhesion and rapid drying
- High bonding and durability capacity
- High penetration and spread rate
- Suitable for all kind of water based paints.

TECHNICAL DATA

Product identity	
Resin	PVA VEOVA Polymer
Density EN ISO 2811-1	1,50±0,02 gr/ml
Dry residue EN ISO 3251	40%
Dilution degree	100-300%
Viscosity	115 ± 5 KU
Drying time between two coatings	2 - 4 hours
VOC in the ready product (European Directive 2004/42/EC) (g/l)	≤10
VOC ambient emissions Simulation chamber ISO 16000 (mg/m3)	≤0.2

RECOMMENDATIONS FOR USE

It is used in all interior, new, old and painted walls and ceilings, previously painted with cement base paint, lime, gypsum, etc. before the paint is applied, such as bedrooms, toilets, living rooms, office spaces, services etc. before the spaces are painted.
