SPATORELLA OUTDOOR

Is a one-component, pre-blended, normal-hardening, very fine-grained, skim-ming mortar available in grey or white, based on cement-lime binders, selected graded aggregates, admixtures and synthetic powder polymers. Due to its special composition, the mortar obtained by mixing with water is easy to apply with a flat metal trowel and finished with a sponge float. Once cured it has a high bonding strength and can be applied at a maximum of 3 mm.

TECHNICAL DATA

Product identity

Consistency: powder

Color: grey or white

Maximum size of aggregate (mm): 0.1

Bulk density (kg/m³): 1,200

Dry solids content (%): 100
